

## A WINNING COMBINATION FOR YOU: "United People Power" – "Essanté Organics"

Economists predict that more millionaires will be created by the "Green Paradigm Shift" than all the ".com's" combined. **BUT, this isn't just about money.** It's about our planet, our children and the future of humanity. **Money means nothing without a healthy body to enjoy it.** As the first pioneer company fully acting on this toxin-free crusade, **Essanté Organics**, gives us the very same positioning as **Microsoft, Amazon, Google, Yahoo** and **Facebook**. **UP Power** adds "extreme marketing" to the mix and history will be made--hopefully, with **YOU** in it! We are fully aware that **you need to make money** and not spend it, of course! However, our collective purchasing power of products that we all use on a daily basis is fueling a huge world-wide business for all who stand up and join. 70% of the USA economy is based on consumer spending and people don't even know are buying products that are linked to horrific diseases, including cancer. The beauty of the **Essanté Organics** marketing plan is that it creates synergy by aligning people so they financially benefit each other. Your "**change**" in products also creates the massive "**change**" in your bank account! Please visit **EWG.ORG/SKINDEEP** and look up the products you currently using! Live **FREE!** – Toxin **FREE!** – Financially **FREE!**
